How to access the online registration steps

Log in to Minerva (http://minerva.leeds.ac.uk). New students will need to follow the link to collect their username and password from the homepage.

<table>
<thead>
<tr>
<th>Troubleshooting login page</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Retrieving username and password</strong></td>
<td>Have you entered your university student ID number (i.e. not UCAS ID/staff number)? Are you trying to log in before you have accepted your unconditional offer/before your cohort’s account-live date (listed on the mypassword.leeds.ac.uk page)?</td>
</tr>
<tr>
<td><strong>Username</strong></td>
<td>Are you using the correct username (i.e. not your Student ID number or UCAS number)? If not, please locate your student ID on offer letter and go to retrieve username (above).</td>

</tr>
</tbody>
</table>

Once logged in, click the Student Services icon on the top bar:

The student Services icon will take you to the log-in page of Student Services. Log-in again, then choose Registration from the list of options, as below:
**Start page**

You are required to register for each year of every programme of study you take. If you are starting more than one programme of study you will be given a choice of which programme to register for.

<tr>

</tr>
</tbody>
</table>

If you have only one programme of study you will skip this step and be taken straight to the registration checklist (see below).

**Notes on navigation of each step**

With the exception of the checklist page, all pages will have navigation buttons at the bottom of each page:

- 'Continue' - save any changes and take you on to the next step
- 'Checklist' - save any changes and take you back to the Checklist page,
- 'Cancel' - back to the Checklist page without saving any changes.

The help pages can be accessed by clicking on HELP in the top right hand corner of each screen.
The process is split into seven steps with help pages at each step. Most of these steps can be completed in any order but step 5 **must** be completed before step 6. This is because the tuition fee is calculated based on the current programme of study. Similarly, step 7 cannot be completed until all previous steps are complete. **All steps must be completed to finish the online part of registration.**

Click on a checklist item to confirm/update information. Once you have entered a page of the checklist, use the navigation buttons to go through each step in sequence.

**What is registration?**
Every student at the University of Leeds is required to register at the start of each academic year. Registration is the formal process of becoming a student of the University. It enables you to attend lectures and seminars, receive tuition or supervision, sit examinations, register with the Library and other services and become a member of Leeds University Union. It includes a financial process of paying fees as well as ensuring that the University holds accurate and up-to-date information about you. It is **not** about choosing and confirming the modules you wish to study - this is a separate exercise (that does not apply to research students).

**What happens when I complete these steps?**
On successful completion of the online registration process your student status will be updated on the University Student Record System. If you are a returning student, this will allow you to continue using University facilities such as computing, library and sports facilities (if paid for). Those who are new students should also complete an identity check on campus before they are fully registered.

**Deadlines**
The final date for registration is four weeks after your programme of study commences. After this date your student record will be updated and you will be prevented from registering online and advised to contact your Parent School (or Graduate School in the case of research students). Students failing to re-register within four weeks of the start of teaching (or after the relevant
registration date in the case of research students) will have their access to University computing and library facilities removed.

What do I need for these steps?
In order to complete registration you will need your address details including emergency contacts and telephone numbers along with your fee payment information; this may include bank account details, sponsor letter, scholarship information, credit/debit card details.

Addresses, telephone numbers and emergency contact details

There are three address types that require checking: Home, Term Time and Emergency Contact.

Each address type is displayed on separate pages with the requirement to update (if necessary) and confirm the address.

Notes on adding a UK address:
The search facility (see screenshot below) can be used to find UK addresses using postcode, city or address line 1. Postcode is the most accurate piece of information and it is recommended that if this is known then it is used on its own.

Once the search criteria have been entered, click the 'Find UK Address' button. This will present you with a list of matching addresses. Choose the correct address from the drop down menu and click 'Accept Address' to populate the address fields below with the new address.

If you are a returning student and cannot provide your term time address at this time: you must have a new term time address to overwrite your old address – contact the Registration Helpline if this causes any problems.

If you have applied for University accommodation: leave all address fields BLANK, but do add your contact telephone number(s). Your address will be entered by the University accommodation team once your accommodation is confirmed.

Contact details summary page

After all three address types have been confirmed you will be presented with a summary of the information and required to confirm that all the addresses held are correct. If you return to step 3 again you will be presented with this page.

The system can only display **one** address of each type on the summary page. If the address displayed has an end date, this indicates that we may also be holding a future address for you. However, we cannot display it as it is not currently your active address. If we have been provided with a future address we will be holding it but if you want to be sure you can log back into Minerva and go to Student Services (via the ‘Access Student Services’ icon) to check your current address data.

**Summary Page**

Please check below all the current contact details we now have for you. If you want to make any changes, please click on the ‘Change’ button next to the details you want to change. If you entered an address with a start date in the future, the information will *NOT* yet be displayed here. The system can only show current information - you should see an expiry date on the current address, after which point your new address will be valid.

HELP text as seen by students: the Fee payment arrangements page

Tuition Fees
The fee shown is for this academic session, based on your current programme of study. You must make arrangements to pay your tuition fees as part of registration, unless they are paid in full by Student Finance (UK/EEA Undergraduates only).

Please Note: the tuition fee shown will not include any costs invoiced directly by your department, for example field trips and bench fees. Contact your department directly if you think this may be relevant to you.
If your fee has been manually amended, it will display as an overdue balance rather than a fee.
If you think the fee shown is incorrect please contact the Registration Helpline (details at the bottom of the page)

Overdue Balance
Overdue tuition fees from a previous session must be paid in full before you can register for a further session.
If you cannot make payment of your outstanding balance immediately you may be eligible for deferred registration. See the relevant section below for further details.

Student Finance (UK/EU Undergraduates only)
If we have been notified that you have made an application for student support to Student Finance England/EU your Student Support Number (SSN) will be shown. If you have made an application but your Student Support Number was not shown this may be because your application is still being assessed. If you wish to enquire about your application please contact the Student Support Helpline on 0300 100 0607.
If Student Finance England/EU are only paying part of your fee you must make arrangements to pay the balance by instalments or in full by selecting the relevant option.

Student Finance Postgraduate loans
Student Finance (UK/EU Postgraduates only)
If you are receiving a postgraduate student loan we must receive confirmation from Student Finance that your loan has been approved before the PG LOAN instalment plan will display. While you wait for this confirmation to come through you can request deferred registration. See the “Deferred registration” guidance below for further details.

Instalments
You can pay your tuition fee by instalments; we offer a two-part scheme with each instalment being 50% of the fee due. You can complete an instalment plan as part of registration by selecting the ‘Complete instalment Plan’ button. Postgraduate and International students must make a manual payment for the first instalment.
If you are an international student and you have not yet got a UK bank account you can set up an instalment plan now and provide Direct Debit details later in your first term.

Postgraduate loan students - if you are receiving a postgraduate loan from Student Finance England/EU you are entitled to an exceptional three part instalment plan. This will only display after Student Finance have informed us your loan has been approved.
Research Students - overtime fees must be paid in full at registration.

Sponsorship
If an external organisation (i.e. not a friend, relative or Student Finance England/EU) is responsible for payment of all or part of your tuition fee please send a sponsor letter to sponsors@leeds.ac.uk.
All sponsors must pay within 30 days of being invoiced, no instalment option is available.

**Scholarship**
If you have a scholarship from your School for all or part of your tuition fee which is not shown on Step 6 of Registration, contact your School. They will arrange for this to be updated.

**Research Students:** If you are in receipt of a scholarship administered by Postgraduate Research and Operations, you can commence online registration but will not be able to complete it. Once you have received your Scholarship Renewal Letter you can complete registration.

**Payment Options Available:**
For further information about the different ways to pay, please visit the [Fees website](#).

**Deferred Registration**
If you are unable to complete your registration immediately for financial reasons you may be eligible for deferred registration. This is valid for a period of one month or until the registration deadline (whichever is sooner). This allows you temporary access to University facilities such as the library and computers whilst you make the necessary arrangements to complete your registration.

You will need to visit Student Fees in the Student Services Centre, Marjorie & Arnold Ziff Building in order to be granted deferred registration.

**Please note:** Maintenance Loans from Student Finance England/EU will not be paid whilst you have deferred registration, it will only be released when you have completed your registration.

Your Next Steps

New Students (including those progressing from an undergraduate to a postgraduate degree)
You should now complete an identity check on campus to finish your registration*. Find out more here.
Student Loans Company note: New UK/EU students with a student loan must have their identity checked before the Student Loans Company can be informed that you have registered for your course and are in attendance (to release your loan payment).

Returning Students:
You have now completed your registration for this academic year. If your Student ID card has expired, please bring it to the Student Service Centre for a replacement. If your old card is lost or has been stolen you will be asked to pay a replacement fee of £10. For more information on how to apply, please visit our website.
* A very small minority of courses, namely courses with minimal campus contact such as distance learning courses, will not be required to complete the identity check for the university - you will likely have been told by your school if this is the case. Students requiring a tier government student loan confirmation are still required to complete an identity check even within this group.
