

**UNIVERSITY OF LEEDS
SCHOOL OF HEALTHCARE**

**UNDERGRADUATE ADMISSIONS POLICY
2019**

This document outlines the School of Healthcare Admissions Policy for 2019 entry. It supports the admissions principles and policies of the University of Leeds, as outlined in the University of Leeds Undergraduate Admissions Policy (University of Leeds Undergraduate Admissions Policy) and should be considered alongside this document. This policy will be reviewed on an annual basis.

The School of Healthcare Admissions Policy applies to the following programmes:

BSc (Hons) Nursing (Adult) - B700
BSc (Hons) Nursing (Child) - B730
BSc (Hons) Nursing (Mental Health) - B760
BSc (Hons) Midwifery- B720
BA (Hons) Social Work- L500

1. Principles

The School of Healthcare ensures that the selection process provides equal consideration for applicants who apply by the relevant closing date. All selection decisions are made on the basis of merit and the ability of each applicant to meet the academic and non-academic criteria for admission to the relevant programme of study.

2. Selection principles

The School of Healthcare will treat all applicants fairly and not discriminate unlawfully on grounds of their age; disability; gender; gender identity; pregnancy or maternity status; race; religion or belief; or sexual orientation.

3. Application process

3.1 UCAS process

All full time undergraduate applications must be made through the online Universities and Colleges Admissions Service (www.ucas.com) by 15th January.

The School of Healthcare might accept applications after the initial UCAS closing date, however it is recommended that an application is made before the 15th January deadline where possible as we cannot guarantee late applications will be accepted/considered. The School of Healthcare usually participates in the UCAS Extra scheme.

3.2 Access to Leeds and Realising Opportunities scheme

We are committed to identifying all applicants who have the potential to succeed at the University of Leeds. Applicants who meet two or more of the following criteria are eligible to apply for the Access to Leeds scheme:

- From a household with an annual income of £25,000 or below OR in receipt of 16-19 Bursary Fund or Discretionary Learner Support with

income threshold of £25,000, OR in receipt of free school meals during their GCSE studies

- In the first generation of their immediate family to apply to higher education
- Attends, or has attended, a school which achieved less than the national average Attainment 8 score at GCSE
- Only option is to attend a local university
- Studies disrupted by circumstances in their personal, social or domestic lives
- Live in a geographical area with low levels of progression onto higher education (see our [online postcode checker](#)).
- Living or grew up in [public care](#)

Access to Leeds applicants receive special consideration from admissions tutors and those who receive an offer are given an alternative offer alongside their standard offer.

The alternative offer will be conditional upon successfully completing the Access to Leeds module and making the University of Leeds their firm choice as well as:

- a reduction of two A Level grades (across two of three A levels, if taken), OR
an equivalent reduction where alternative qualifications are offered.

(Any specific subjects required for a course will still be included in any offer made and may not receive a reduction)

Access to Leeds students are eligible for an Access to Leeds offer if they meet the University's GCSE matriculation standard and, for courses which require particular subject skills, have gained at least a GCSE grade C/4 (or equivalent) in the requested subject area, although many applicants to highly selective courses present with higher than the minimum GCSE requirements. Please see the [Access to Leeds webpage](#) for more information.

Applicants already participating in the Realising Opportunities scheme receive the same additional consideration and alternative offer as Access to Leeds applicants.

Applicants who do not meet the standard entry criteria for an offer but are Access to Leeds eligible will be considered for an offer that is "Access to Leeds only" and require successful completion of the Access to Leeds module in order to have their place confirmed. Such applicants must meet the University's GCSE matriculation standard and, for courses which require particular subject skills, have gained at least GCSE grade C/4 (or equivalent) in the requested subject area.

The Access to Leeds scheme is not appropriate for applicants who already hold a Higher Education qualification or those taking an Access to Higher Education or foundation qualification.

Other acceptable equivalents are highlighted below:

	Adult Nursing	Child Nursing	Mental Health Nursing
A Levels	BBB preferably including a science subject	BBB including a science subject	BBB preferably including a science subject
	We consider a science subject to be either Biology, Human Biology, Chemistry, Physics, Maths or Social Sciences, such as Psychology		
BTEC Extended Diploma	<p>Distinction / Distinction / Distinction (DDD) in Health and Social Care (Health Sciences) or Health and Social Care (Health Studies)</p> <p>All BTEC modules must be listed on the application form.</p>	<p>Distinction / Distinction / Distinction (DDD) in Health and Social Care (Health Sciences) or Health and Social Care (Health Studies)</p> <p>Must also include six science modules. More details can be found here.</p> <p>All BTEC modules must be listed on the application form.</p>	<p>Distinction / Distinction / Distinction (DDD) in Health and Social Care (Health Sciences) or Health and Social Care (Health Studies)</p> <p>All BTEC modules must be listed on the application form.</p>
CACHE Diploma	<p>Grade A Pass in NCFE CACHE Level 3 Extended Diploma in Health and Social Care.</p> <p>Specific module requirements. More details can be found here.</p>	<p>Grade A Pass in NCFE CACHE Level 3 Extended Diploma in Health and Social Care.</p> <p>Specific module requirements. Remaining 15 credits must be at merit or above.</p> <p>Applicants strongly advised to contact the School to discuss suitability of chosen Access course.</p>

3.3 Deferred applications/ Gap-Year

The School of Healthcare will accept applications for deferred entry. We welcome applications from applicants who are intending to undertake a Gap Year. We encourage such applicants to make use of the personal statement section of the UCAS application form to explain their reasons for taking a Gap Year.

Applicants who wish to defer following the submission of their application may be required to do so prior to the confirmation of a place. Please check the relevant faculty/school policy for details. For offer holders whose first language is not English, English language qualifications must also be valid at your revised start date.

Applicants may normally apply for deferred entry for one academic year only. If an applicant wishes to defer again, they must reapply and contact the Academic School.

3.4 Re-sits/ Re-applications

The School of Healthcare will accept applications from applicants who have re-submitted applications and/or re-sat examinations.

Applicants who wish to reapply should contact the School of Healthcare prior to making an application. Any decision on the eligibility of applicants who have previously held an offer of a place but failed to achieve the academic conditions at first attempt is an academic judgement. Such candidates should be aware that no guarantee can be given that another offer will be made, and that the conditions of any future offer may differ to those of the original.

3.5 Early Examinations

The School of Healthcare recognises that some applicants may have studied a more flexible curriculum, where they have been able to progress through their educational development at an appropriate rate according to their ability, this may be as early GCSEs or A-levels (or equivalent) across three years.

Typically we would expect applicants to have completed three A-levels (or equivalent) in one sitting. If this has not been the case, then we advise the school provides further information as to reasons for this within the academic reference section of the UCAS form.

3.6 AS Levels

We recognise that some A-level students will no longer sit AS levels. This group will not be disadvantaged in the decision making process at Leeds.

3.7 Internal transfers

The School of Healthcare will accept applications from applicants who wish to transfer internally from other programmes at the University of Leeds, to level one of our programmes. Applicants are expected to meet the standard academic entry requirements and each will be reviewed on an individual basis with consideration of the following:

- Clinical placements are available

- Relevant entry requirements have been obtained for entry onto the programme they wish to transfer to
- A personal statement to support entry onto the programme they wish to transfer to
- Confirmation of details of modules and student performance from the current programme they wish to transfer from
- All transfer enquiries should be made to the Admissions Tutor for the programme you wish to transfer to in the first instance.

3.8 External transfers

The School of Healthcare will accept applications from applicants who wish to transfer onto one of our courses from other institutions, providing places are available and at level one of our programmes. The same criteria as 3.7 (above) apply with each being reviewed on an individual basis. Applicants are expected to meet the standard academic entry requirements for the programme applied for (<https://courses.leeds.ac.uk/>)

3.9 Advanced Entry

The School of Healthcare will accept applications from applicants who are seeking entry to the second year. All applications must be made through UCAS by the 15th January (www.ucas.com). Applicants are expected to meet the standard academic entry requirements and each will be reviewed on an individual basis with consideration of the following:

- Clinical placements are available
- Learning outcomes of year 1 of the relevant programme against which advanced standing is sought have been met
- Confirmation of details of modules and student performance from the current programme they wish to transfer from
- A minimum of 60% average achieved in the first year of study.

Judgements on equivalence are made by the Admissions Tutor. Entry onto Level 3 of the School of Healthcare is not permitted.

Further details of the University's policy can be found on our webpage.

3.10 Former students of the University

The University of Leeds welcomes applications from candidates who have previously studied at this institution. Where appropriate, such candidates may be able to apply for Advanced Entry (see 3.9 above).

Candidates who have been withdrawn from their earlier studies due to academic failure may apply for re-entry to the University, but not to the same or a closely related programme of study, i.e. where over half of the compulsory modules are identical. Candidates who previously left the University due to non-academic reasons e.g. ill health, financial reasons, will not be subject to this condition.

Applications from candidates who have been permanently excluded (expelled) from the University for disciplinary reasons, those who have been excluded under the Referred Student Procedure or for reasons of misconduct or fitness to train in a professionally-regulated discipline will be rejected.

Applicants should contact the school for further information.

3.11 Joint Honours applications

The University of Leeds offers the most varied selection of two-subject degrees in the country. The School of Healthcare does not currently offer any, but for the current range of Joint Honours programmes offered by the University of Leeds please refer to our [Coursefinder webpage](#)

3.12 Extended degree programmes

Where applicants do not have the formal qualifications for immediate entry to a degree course, progression may be possible through one of the University's extended degree programmes with foundation year. Please see Appendix A of the University of Leeds undergraduate admissions policy, or the Lifelong Learning Centre website for details <http://www.llc.leeds.ac.uk/course-directory>.

3.13 International/ Overseas students

The School of Healthcare welcomes International/Overseas students.

In applying to the School of Healthcare for the BSc Adult, Child or Mental Health Nursing programme, BSc Midwifery programme or BA Social Work programme applicants need to be fully conversant of the implications of Student, Graduate Nurse or Midwife or Social worker with UK registration, with the Nursing and Midwifery Council (NMC) <https://www.nmc.org.uk/> and as a social worker with the Health and Care Professions Council (HCPC <http://www.hcpc-uk.co.uk/>) within the United Kingdom.

BSc Adult, Child, Mental Health Nursing and Midwifery

In the UK there are four fields of Nursing, three of which are provided by the School of Healthcare (Adult, Child and Mental Health Nursing). The School does not offer a Nursing programme for Learning Disability. All the fields currently require a separate degree pathway. Graduating with a degree in one field only allows registration with the Nursing and Midwifery Council (NMC) <https://www.nmc.org.uk/> in that field and practice within that field. For example, an Adult Nursing Degree with registration does **not** enable the degree holder to work as a Children's Nurse, Mental Health Nurse or Midwife for example. Midwifery is also a separate degree course.

The programmes are therefore specific to one field, which may be different to Nursing or Midwifery courses in the home country. Applicants should consider such implications before applying to the School of Healthcare and check the in-country Nursing and Midwifery Board, Nursing/Midwifery Regulatory Body or Nursing/Midwifery Licensing body to determine if this qualification is acceptable should a return to the home country become necessary. Further clarification is required to ascertain if licensing or regulatory bodies require further preparation for practice in the home country after gaining a UK Nursing or Midwifery degree. Not all countries have the same requirements so transferability cannot be assumed.

The BSc Nursing (Adult, Child and Mental Health) and Midwifery degree programmes are three years in length and upon completion and sign off by the School of Healthcare, entitlement to register with the NMC (UK Nursing and Midwifery Council) is permissible. This registration enables the holder to practice in the United Kingdom. It also allows the holder to register and practice within the European Union at present. However, the UK is currently opting out of membership of the EU, and when this has been finalised this could change.

BA Social Work

The Social Work programme is three years in length. Upon graduation, registration can be applied for with the UK Health and Care Professions Council. This enables registrants to use the title of Social Worker and to practice in England and Wales. Applicants not intending to work in England and Wales should contact the Registration board in the relevant country and check the requirements. Not all countries have the same requirements so transferability cannot be assumed.

Educational Requirements:

All applicants require a minimum level of English in order to meet our matriculation standards. Applicants for whom English is not their first language may require an additional English language qualification to gain entry to the University of Leeds and will be made an offer which is conditional on successful completion of one of the approved tests, or one of the University of Leeds pre-sessional English language courses. A list of applicants who are not required to undertake further English language tests can be found on our Language centre website http://www.leeds.ac.uk/arts/info/125008/english_language

Teaching, assessment and student support will take place in English, unless otherwise stated. Schools must be confident that candidates have the proficiency in English language necessary to succeed on the chosen programme of study and that they meet the UKVI minimum requirements to obtain a Tier 4 visa. All applications from international students are considered in line with our standard entrance requirements, (typically expressed as GCE A-level qualifications) and we would expect predicted grades to be of an equivalent level. Proof of English Language proficiency will be required and minimum levels and approved tests for the School of Healthcare are detailed below:

Commonly Accepted Qualifications

- IELTS 7.0 with no less than 6.5 scored in any of the four components **OR**
- TOEFL 600/ 250/ 100 for paper-based/computer-based/internet-based respectively.
 - For the internet based score, scores should be no less than 22, 22, 23 and 24 in listening, reading, writing and speaking respectively.

Certain qualifications, e.g. IELTS, have a 2 year validity period and must be valid at the commencement of studies.

Overseas applicants and applicants from non-EU countries should note that student visa regulations will not normally allow study on a part-time basis. Further information for prospective international applicants can be found on our website at <http://www.leeds.ac.uk/international/>

Admissions Process

All applicants for Nursing, Midwifery and Social Work programmes must meet entry requirements, are required to be interviewed and undertake a short entry test. Interviews may be conducted via SKYPE and will be arranged with the applicant for a specific date and time. For nursing and midwifery the test is a numeracy test. For Social Work, the current test is a written exercise. Tests for Nursing and Midwifery

will be taken remotely, but under observation, immediately following the interview. Tests for Social Work will be under advisement.

The numeracy test for Nursing and Midwifery is set around the European metric system of measurement and calculation. Information pertaining to the International English Language Testing System qualification "IELTS" is available at: http://www.leeds.ac.uk/arts/info/125008/english_language.

Fees and Additional Costs

All applicants need to ensure cognisance of the financial implications before applying to the School of Healthcare and that there may be a requirement to provide a financial guarantee of funding for three years. The status of a student as being a home or overseas student is based upon residential status and not nationality. Where a prospective student is an overseas citizen living within the UK they should contact the Admissions Team at the School of Healthcare, (https://medhealth.leeds.ac.uk/info/1100/school_of_healthcare/959/contact_us) regardless of their residential status, to verify their fees status.

The current tuition and combined placement fees for Undergraduate international students are £23,250.00 in 2018/19 and are subject to annual revision. The course length is 3 years. Students will have to pay for Occupational Health clearance and immunisations (cost will vary dependent on individual needs of student and course requirements as well as any additional Occupational Health appointments and treatment needed during the programme). Other additional costs associated with the programme, which require consideration include visas and travel to and from placement. Applicants for all Undergraduate programmes at the School of Healthcare require a Criminal Record check, which will be undertaken as part of the visa application.

3.14 Mature applicants

Mature students, those who will be over 21 at the point of entry, wishing to study on a full-time basis should apply using standard UCAS procedure (See section 3.1). Applicants are assessed on the basis of their UCAS form, as detailed in section 4. An interview and/or piece of assessed written work/ numeracy test may also be offered as part of the entry process.

Support is available through the Lifelong Learning Centre (LLC) and includes pre-entry advice, guidance and preparatory programmes for adults, developing academic skills before entry and information on a range of issues relevant to such applicants. For further details, contact: lifelonglearning@leeds.ac.uk, phone 0113 343 3212 or see www.llc.leeds.ac.uk.

3.15 Part time applicants

At the present time, the School of Healthcare does not offer part time pathways for the Undergraduate programmes offered.

3.16 Age and Safeguarding

The University recognises someone's young age (if under 18) or safeguarding position may need to be taken into account. For full details of the University policy please see http://www.leeds.ac.uk/secretariat/documents/safeguarding_policy.pdf

All of our Undergraduate programmes require that you be over 18 at the commencement of the programme.

3.17 Disabled applicants

The School of Healthcare welcomes applications from disabled people¹. The University will make appropriate adjustments, with the aim of ensuring that disabled applicants have full and equal access to our admissions procedures and courses. Information about disability is not used when considering your academic eligibility for your chosen programme of study. It is reviewed in order to identify your potential study-related support requirements, and your eligibility for disability-related support funding, so that the University can ensure you are supported effectively on your course.

Applicants are invited to indicate their disability status on their application form and we strongly encourage applicants to declare any disability. The University will always aim to make appropriate adjustments for disabled applicants. However, applicants who choose not to declare their disability should be aware that it may be more difficult, or in rare cases impossible, to make the appropriate adjustments. Disabled applicants are also advised to contact the University's Disability Services team (part of the University's Student Education Service) once an application has been submitted through UCAS, to discuss any support requirements they may have in relation to the programme for which they have applied. Disability Services can be contacted at disability@leeds.ac.uk.

If any applicant feels that their disability has meant that they have faced exceptional circumstances which should be taken into account by the University when considering their application, they should refer to section 4.11 of the University's Undergraduate admissions policy (<http://www.leeds.ac.uk/admissionspolicy>)

The admissions process is covered by the University's Policy on Equality and Inclusion which is available from the University's Equality Policy Unit at www.equality.leeds.ac.uk.

3.18 Applicants with a health-related issue or other mitigating circumstances

The University of Leeds [Undergraduate Admissions Policy](#) details our policy concerning applicants with a health related issue or additional support needs. The School sees health-related issues² as being distinct from disability-related issues, although, of course, in some cases, a disabled applicant may also have a health-related issue.

If a candidate feels that any disability, prior ill-health –or personal circumstances other than ill-health (for example, bereavement or other difficult home or family circumstances) –may have affected their **previous** education, or may have affected the grades they received in past examinations, then they are welcome to contact the School to discuss this further. All formal requests for mitigating circumstances to be

¹ ¹The University is committed to the social model of disability and in line with the definition under the Equality Act 2010 defines a disabled person as someone with a physical or mental impairment which is long-term (lasting 12 months or more) and which has a substantial impact on that person's ability to carry out normal day-to-day activities. The definition of disability includes long-term medical conditions such as cancer, HIV/AIDS and MS (in each case from the point of diagnosis) and may include epilepsy, diabetes, Chronic Fatigue Syndrome/ME amongst others.

² Which are not classed as a "disability".

taken into account in the admissions process should be supported by a full declaration about the nature of the circumstances.

Where these circumstances are affecting or have affected **current** studies the correct course of action would be to notify the relevant exam board of the circumstances. Whilst you are welcome to notify (via a verified statement) the relevant admissions office of the circumstances, the University will assume that the relevant exam board will take the circumstances into consideration and any mitigating circumstances have been taken into account in the final grades. These final grades are what will be used when making a decision.

3.19 Guidance for trans applicants

Applicants who do not wish to disclose their trans status to the faculty/school admissions team for a programme of study but require their status to be changed should contact the Taught Admissions Office taught-admissions@leeds.ac.uk and the team will be able to support the applicant through the process. The University will be required to carry out identity checks as part of the registration process, and/or taught admissions staff may be required to advise the relevant Faculty Admissions Manager of a status change in order to facilitate removal of any previous documentation, however these will be undertaken confidentially and with sensitivity. Full guidance to support trans staff and students can be found on [Equality Policy Unit website](#).

3.20 Support of applicants who are pregnant

In line with the University policy on support for students who are pregnant or have young children (available from <http://www.equality.leeds.ac.uk/university-policies-2/>), applicants who are pregnant are advised to inform their Admissions Tutor at an early stage. This is so that consideration can be given to appropriate support being available from the start of their programme of study.

3.21 Criminal convictions

The University has a Policy statement on students with criminal records http://www.leeds.ac.uk/secretariat/documents/applicants_students_criminal_record.pdf . This Policy includes applicants seeking admission. It should be noted that if an applicant is required to disclose a criminal offence and fails to do so this will generally be considered a very serious matter and is likely to lead to their application being rejected or, if admitted, to their registration at the University being revoked. Having a prior criminal record will not necessarily prevent an applicant from being offered a place; this may depend, for example, on the nature, timing and relevance of the criminal offence in question. The University may request further information about the nature or context of an applicant's criminal record.

Where indicated in the prospectus or on the University's website, specific programmes may involve regular access to children and/or vulnerable adults, and applicants may be required to undertake with satisfactory results, certain checks with the Disclosure and Barring Service. The University will send further instructions as part of the admissions process where this is the case.

The School of Healthcare is obliged to refuse admission to applicants for our Undergraduate programmes as they are regulated by national or statutory bodies where enhanced DBS checks reveals prior criminal behaviour giving rise to concern for the protection of the public

Section 4: Admissions Requirements

4.1 Admissions intake

Details are given below of the typical annual intake through UCAS for each programme within the School of Healthcare. The figure given is for home students, including mature students and those from the European Union. International fee-paying students are considered separately and are not included in these figures.

The current Admissions figures for students on the following programmes are:

BSc (Hons) Nursing (Adult)	180-210
BSc (Hons) Nursing (Child)	50-55
BSc (Hons) Nursing (Mental Health)	40-50
BSc (Hons) Midwifery	50-55
BA (Hons) Social Work	40-50

4.2 Competition for places

Programmes within the School of Healthcare are generally popular and we receive in excess of 15 applications for each available place. Most of our applicants have an excellent academic record, typically offering ABB at A2 level and a good range of subjects at GCSE including English, Maths and Science subjects.

4.3 Selection process

All applications must be made online through the Universities and Colleges Admissions Service (www.ucas.com). Academic grades normally form only one part of the final decision and the following sections give examples of how applicants may demonstrate that they have the skills, knowledge and attributes that we believe will enable them to become successful students on our degree programmes.

The selection criteria will be applied ensuring that we treat all students fairly and not discriminate unlawfully on grounds of their age; disability; gender; gender identity; pregnancy or maternity status; race; religion or belief; or sexual orientation.

The admissions process is covered by the University's Policy on Equality and Inclusion which is available from the University's Equality Policy Unit at www.equality.leeds.ac.uk/university-policies-2/.

4.4 Academic entrance requirements

The School of Healthcare welcomes applications from applicants studying a range of Level 3 equivalent qualifications where students have the potential to succeed on their chosen degree course.

Please see the School of Healthcare webpage detailing all undergraduate programmes programme lists of entry requirements and accepted qualifications http://medhealth.leeds.ac.uk/info/1130/undergraduate/205/how_to_apply

The School of Healthcare sets its entry requirements to ensure success on its programmes. For this reason requirements may differ between programmes and to the minimum/guideline qualification equivalencies set out in Appendix A of the University Admissions Policy [Undergraduate Admissions Policy](#).

We recognise the value; effort and enthusiasm applicants make in the Extended Project and may include it as part of an alternative conditional offer.

Entrance requirements may be reviewed and amended at the end of an admissions cycle based on the performance of the previous year's cohort.

The School of Healthcare may accept Level 2 Functional Skills English and Maths in lieu of GCSE English and Maths however it is recommended that the applicant contact the School before applying.

4.5 Personal statement advice

The personal statement of the UCAS form helps us to assess the nature of the applicant's interest in the academic subject and is an important part of the selection process. Accurate spelling and grammar are of paramount importance. It is essential that applicants take this opportunity to demonstrate their enthusiasm and aptitude for the professional and academic subject. See http://medhealth.leeds.ac.uk/info/1130/undergraduate/205/how_to_apply

We assess the extent to which the applicant demonstrates:

- Why have you chosen a particular profession and what lead you to this?
- What and how have you researched about it?
- What is your knowledge and understanding of your chosen profession and their contribution to the wider team?
- What are the current issues affecting your chosen profession?
- How have your current studies prepared you for your chosen profession and studying at University?
- What transferable skills do you have – for example; work experience, positions of responsibility through paid employment or School/College activities?
- What caring experience do you have?

4.6 Selection Events and Interviews

Applicants are shortlisted against agreed criteria and they must meet the academic entry requirement for the programme at application or within the admission cycle. The academic background of the applicant plus the personal statement on the UCAS form helps us to assess the nature of the applicant's interest in their chosen profession and is an important part of the selection process. Additionally, the reference provided on the UCAS form must be supportive of the applicant. The School of Healthcare will only shortlist based on the information supplied on the form at the time of submission.

Successful applicants will be invited to the School of Healthcare. Due to the diverse range of undergraduate programmes the School uses a range of recruitment methods, including selection events and interviews. This enables us to further assess the applicant's aptitude and interest in the programme. It also allows us to provide detailed information about the programme in terms of content, delivery and expectations of staff and students. Applicants have the opportunity to meet some of the academic staff and current students, and to look at the available facilities within both the School of Healthcare and wider University of Leeds campus.

The School of Healthcare conducts either an individual face to face interview or a focus group interview. This allows a method of identifying potential for study, and further there are professionally relevant legal/regulatory requirement stipulations (for example the UK Nursing and Midwifery Council) which ensure parity with Values Based Recruitment initiatives for those ultimately wishing to work in Health and

Social Care. <https://www.hee.nhs.uk/our-work/attracting-recruiting/values-based-recruitment>.

Interviews are scheduled as flexibly as possible to minimise the chance of applicants being unable to complete this part of the selection process. This includes, where possible, providing adequate notice (usually at least two weeks and ideally more to applicants who have to travel from overseas) when inviting an applicant to an interview; and offering applicants an alternative interview date (if requested) where possible. If the School of Healthcare cancels or postpones an interview, applicants will be offered a revised interview date. A revised interview date may not be offered if the applicant fails to attend an interview without informing the University in advance.

Some applicants (for example, disabled applicants, applicants who are pregnant, etc.) will require adjustments at interview (for example, a sign-language interpreter or an adjustment to an audition process) to provide them with full and equal access to the process. The School of Healthcare is responsible for making reasonable adjustments where possible. The University's Disability Services team should be consulted for further advice or information regarding disability related adjustments (email disability@leeds.ac.uk) and the Equality Policy Unit for advice on other adjustments (email equality@leeds.ac.uk).

Telephone or SKYPE interviews

The University may conduct telephone or SKYPE interviews if appropriate (eg, for international applicants who may not be able to travel to the School of Healthcare). In some cases legal or regulatory requirements may mean this option is not available. Telephone or SKYPE interviews will follow the same principles and guidance as face-to-face interviews.

A numeracy test is required for both the BSc Nursing (Adult, Child and Mental Health) and BSc Midwifery. Please inform the School of Healthcare if you have a disability so that they can facilitate any necessary support.

If invited to the School of Healthcare, you will receive an invitation to attend on a specific date. This will include more detailed information of the nature and content the interview or selection event. We will do our best to accommodate requests for an alternative date but this cannot be guaranteed.

For full details relating to your specific programme of interest please contact the School of Healthcare:

Undergraduate admissions enquiries
Telephone: +44 90) 113 343 1349
Email: admissions@healthcare.leeds.ac.uk

Section 5: Offers

Offers are made on the basis of merit and the ability of each applicant to meet the academic and non-academic criteria for admission to the relevant programme of study. Offers are made based on the information supplied on the UCAS form and performance at interview where applicable (see section above). The University of Leeds [Undergraduate Admissions Policy](#) gives further detail on the type of offers that are made. Each offer is specific to an applicant's individual qualifications and circumstances. Applicants must typically meet the conditions set by the University by 31 August of the application year unless otherwise stated in the prescribed course or professional body requirements, even if the offer is deferred for entry to the following application year.

5.1 Confirmation

Each offer is specific to an applicant's individual qualifications and circumstances. Applicants must typically meet the conditions set by the University by 31 August of the application year unless otherwise stated in the prescribed course or professional body requirements, even if the offer is deferred for entry to the following application year. All offers from the School of Healthcare will be subject to satisfactory health screening and enhanced clearance from the Disclosure and Barring Service (DBS). If Health and DBS conditions are not met prior to registration, proof that these checks will be fulfilled during Semester 1 can be used to confirm a place.

5.2 Course start date and arrival

The course start date is indicated clearly in the offer letter alongside the period of study and applicants must ensure that they are able to attend their course from this date. The University reserves the right to refuse admission to those offer holders who arrive after this date. Should there be any possibility of a delay to arrival, offer holders should seek advice from the appropriate School admissions office before travelling: Email: admissions@healthcare.leeds.ac.uk

5.3 Re-marks

The School of Healthcare may not be able to confirm a place in the upcoming academic cycle following an improved final grade after a re-mark, however applicants may be offered a deferred place or asked to reapply. You should Email: admissions@healthcare.leeds.ac.uk

5.4 Deferred applicants

Where a deferred applicant does not meet the conditions of their offer they may not have their place confirmed. If these conditions are not met prior to registration, proof that these checks will be fulfilled during term 1 can be used to confirm a place. This can be an appointment card or evidence of when forms were submitted.

5.5 Unsuccessful applications

Due to the volume of applications received we may have to reject students who already hold or are predicted lower than the typical academic entry requirement, and also many students who meet the non-academic requirements. The UCAS forms of applicants who are unsuccessful in gaining a place on their chosen programme may be passed to the admissions tutors for other courses in which the applicant may be interested.

5.6 Feedback

Unsuccessful applicants may wish to request feedback on the reason for the outcome of their application. All requests for feedback must be made in writing or via email (admissions@healthcare.leeds.ac.uk) and signed by the applicant or from the email address listed on their UCAS form. Generally where applicants request feedback on why they have not been admitted, feedback will be given.

5.7 Complaints

The School of Healthcare will consider all applications fairly and effectively in line with the procedures outlined in this document and the University of Leeds [Undergraduate Admissions Policy](#).

Applicants who wish to challenge a decision to reject their application should write to the Head of School detailing the nature of their complaint.

Dr Janet Hirst
Head of School
School of Healthcare
Baines Wing
University of Leeds
Leeds
LS2 9JT

The complaint must typically be made within 14 days of the decision. Full details of the complaints procedure can be found in the University of Leeds [Undergraduate Admissions Policy](#).

Section 6: Opportunities to visit

6.1 University open days

The University of Leeds Undergraduate Open Days are usually held in June, September and October and are designed for prospective applicants rather than those who have already been made an offer. Details can be found on our open day webpage: http://www.leeds.ac.uk/info/30335/open_days

Applicants are encouraged to attend an Open Day if possible as it is a good opportunity to visit the School of Healthcare prior to being invited to a potential interview.

6.2 Applicant visit days

The School of Healthcare does not hold post-application visit days. All applicants will have attended an interview/selection event at the School of Healthcare. This provides an opportunity to become familiar with the School and programme of study to facilitate an informed choice about whether or not to accept an offer. This is also an ideal opportunity to view the campus and the broader city if so desired. Wherever possible we will accommodate an opportunity to meet with current students and staff members.

Section 7: Scholarships & funding

The University of Leeds currently offers a wide range of scholarships and bursaries that provide funding for students to undertake undergraduate study at the University. Further details can be found on our [webpages](#).

Section 8: Contact details

8.1 General pre-application enquiries

For general enquiries and information relating to courses and admission to the University of Leeds, applicants should contact the Course Enquiries Office

Admissions Enquiries,
University of Leeds,
Leeds,
LS2 9JT
Telephone +44 (0) 113 343 2336

Email - study@leeds.ac.uk
Web – www.leeds.ac.uk/undergraduate
